Danger - Hazard statements H226 Flammable liquid and vapour. H304 May be fatal if swallowed and enters airways.	(continued of page 1
 Hazard statements H226 Flammable liquid and vapour. 	
H226 Flammable liquid and vapour.	
H304 May be fatal if swallowed and enters airways.	
H315 Causes skin irritation.	
H317 May cause an allergic skin reaction. H319 Causes serious eye irritation.	
H411 Toxic to aquatic life with long lasting effects.	
 Precautionary statements 	
P210 Keep away from heat, hot surfaces, sparks, op	on flamos and other ignition sources. No smoking
P233 Keep container tightly closed.	
P240 Ground and bond container and receiving equip	oment
P301+P310 IF SWALLOWED: Immediately call a POI	
P403+P235 Store in a well-ventilated place. Keep co	
P501 Dispose of contents/container in accordance wi	ith local/regional/ national/international regulations.
 PBT: Not applicable. vPvB: Not applicable. Determination of endocrine-disrupting proper Substance is not listed. 	ties

SECTION 04: First aid measures

- 4.1 Description of first aid measures
- General information:
- Seek immediate medical advice.After inhalation:
- Supply fresh air and to be sure call for a doctor.
- After skin contact: If skin irritation continues, consult a doctor.
- Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
 After swallowing:
- Seek immediate medical advice.
- Information for doctor:

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

CTION 05: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing agents:	
CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions.	
 For safety reasons unsuitable extinguishing agents: 	
Water with full jet	
5.2 Special hazards arising from the substance or mixture	
Formation of toxic gases is possible during heating or in case of fire.	
	(continued on page 4)

PRODUCT : RAVINTSARA MADAGASCAR ORG OIL	(continued of page 3
5.3 Advice for firefighters	(continued of page of
Protective equipment:	
Do not inhale explosion gases or combustion gases. • Additional information	
Cool endangered receptacles with water spray.	
SECTION 06: Accidental release measures	
6.1 Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation Keep away from ignition sources.	
6.2 Environmental precautions: Do not allow product to reach sewage system or any water course.	
Inform respective authorities in case of seepage into water course or sewage system.	
6.3 Methods and material for containment and cleaning up: Dispose contaminated material as waste according to item 13.	
Ensure adequate ventilation.	
6.4 Reference to other sections	
See Section 7 for information on safe handling.	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
SECTION 07: Handling and storage	
7.1 Precautions for safe handling	
Keep receptacles tightly sealed. Keep away from heat and direct sunlight.	
Ensure good ventilation/exhaustion at the workplace.	
 Handle with care. Avoid jolting, friction and impact. Information about fire - and explosion protection: 	
Keep ignition sources away - Do not smoke.	
Protect against electrostatic charges.	
7.2 Conditions for safe storage, including any incompatibilities	
Storage:	
 Requirements to be met by storerooms and receptacles: 	
Store only in the original receptacle. Prevent any seepage into the ground.	
Use only receptacles specifically permitted for this substance/ product.	
 Information about storage in one common storage facility: 	
Not required.Further information about storage conditions:	
Keep container tightly sealed.	
Protect from heat and direct sunlight.	
Store receptacle in a well ventilated area.	
7.3 Specific end use(s)	
No further relevant information available.	
CECTION 00. Evenesure controls/normanal protection	
SECTION 08: Exposure controls/personal protection	
8.1 Control parameters	
• Ingredients with limit values that require monitoring at the workplace:	
Not required.	
 Additional information: The lists valid during the making were used as basis. 	
היה הזנג עמות ממוזוץ חב הומאווץ שבוב מגבע מג שמולג.

CHEMICAL SAFETY DATA SHEET according to 2020/878/EC (1907/2006/EC Article 31)

2261302

Printing date: 25.01.2023 **PRODUCT** : **RAVINTSARA MADAGASCAR ORG OIL** (continued of page 4) The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes. Respiratory protection: Use suitable respiratory protective device in case of insufficient ventilation. Protection of hands: Protective aloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. Penetration time of glove material The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Eye/face protection Safety glasses

SECTION 09: Physical and chemical properties

9.1 Information on basic physical and chen		
General Information		
Physical state	Fluid	
Colour:	colourless	
Odour:	agrestic	
Odour threshold:	Not determined.	
Melting point/freezing point:	< -20,0 °C	
Boiling point or initial boiling point and boiling range	178,00 - 179,00 °C	
Flammability	Not determined.	
Lower and upper explosion limit		
Lower:	Not determined.	
Upper:	Not determined.	
Flash point:	49,0 °C NFT 60-103 CC	
Decomposition temperature:	Not determined.	
рН	Not determined.	
Viscosity:		
Kinematic viscosity	Not determined.	
Dynamic:	Not determined.	
Solubility		
water:	Not determined.	
Partition coefficient n-octanol/water (log value)	Not determined.	
Vapour pressure:	Not determined.	
Density and/or relative density		
Density:	Not determined.	
Relative density	0,9000 0,9150 (D20/20)	
Vapour density	Not determined.	
9.2 Other information	No further relevant information available.	
Appearance:		
Form:	fluid	
Important information on protection of hea	Ith and environment, and on safety.	
Auto-ignition temperature:	Not determined.	
Explosive properties:	Not determined.

Oxidising gases	not applicable	
Gases under pressure	not applicable	
Flammable liquids	Flammable liquid and vapour.	
Flammable solids	not applicable	
Self-reactive substances and mixtures	not applicable	
Pyrophoric liquids	not applicable	
Pyrophoric solids	not applicable	
Self-heating substances and mixtures	not applicable	
Substances and mixtures, which emit flammable gases in contact with water	not applicable	
Oxidising liquids	not applicable	
Oxidising solids	not applicable	
Organic peroxides	not applicable	
Corrosive to metals	not applicable	
Desensitised explosives	not applicable	

SECTION 10: Stability and reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical stability

10.3 Possibility of hazardous reactions No dangerous reactions known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products: Not determined.

SECTION 11: Toxicological information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

- DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment - Annex II Substance is not listed.
- REGULATION (EU) 2019/1148
- Annex I RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3)) Substance is not listed.
- Annex II REPORTABLE EXPLOSIVES PRECURSORS
- Substance is not listed.
- Regulation (EC) No 273/2004 on drug precursors Substance is not listed.
- Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors Substance is not listed.
- National regulations:
- Technical instructions (air):
- Class Share in %
- T 0,02
- Waterhazard class: Water hazard class 2 (Self-assessment): hazardous for water.

15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document.
