SECTION 04: First aid measures

- 4.1 Description of first aid measures
- General information:
- Seek immediate medical advice.
- After inhalation:
- Supply fresh air and to be sure call for a doctor. •
- After skin contact: If skin irritation continues, consult a doctor.
- Immediately wash with water and soap and rinse thoroughly.
- After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing:
- Seek immediate medical advice.
- Information for doctor:

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

PRODUCT : LAUREL BOSNIA ORGANIC OIL	
	(continued of page 4)
SECTION 05: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing agents:	
CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions.	
 For safety reasons unsuitable extinguishing agents: 	
Water with full jet	
5.2 Special hazards arising from the substance or mixture	
Formation of toxic gases is possible during heating or in case of fire.	
5.3 Advice for firefighters	
 Protective equipment: Do not inhale explosion gases or combustion gases. 	
 Additional information 	
Cool endangered receptacles with water spray.	
SECTION 06: Accidental release measures	
6.1 Personal precautions, protective equipment and emergency procedures	
Wear protective equipment. Keep unprotected persons away.	
Ensure adequate ventilation	
Keep away from ignition sources.	
6.2 Environmental precautions:	
Do not allow product to reach sewage system or any water course.	
Inform respective authorities in case of seepage into water course or sewage system.	
6.3 Methods and material for containment and cleaning up:	
Dispose contaminated material as waste according to item 13.	
Ensure adequate ventilation.	
6.4 Reference to other sections	
See Section 7 for information on safe handling.	
See Section 8 for information on personal protection equipment.	
See Section 13 for disposal information.	
SECTION 07: Handling and storage	
7.1 Precautions for safe handling Keep receptacles tightly sealed.	
Keep away from heat and direct sunlight.	
Ensure good ventilation/exhaustion at the workplace.	
Open and handle receptacle with care.	
 Handle with care. Avoid jolting, friction and impact. Information about fire - and explosion protection: 	
Keep ignition sources away - Do not smoke.	
Protect against electrostatic charges.	
7.2 Conditions for safe storage, including any incompatibilities	
Storage:	
 Requirements to be met by storerooms and receptacles: 	
Store only in the original receptacle. Prevent any seepage into the ground.	
Use only receptacles specifically permitted for this substance/ product.	
 Information about storage in one common storage facility: 	
Not required.	
 Further information about storage conditions: Keep container tightly sealed. 	

7.3 Specific end use(s) No further relevant information available.

۲ 	PRODUCT : LAUREL BOSNIA ORGANIC OIL
_	(continued of page 5)
S	SECTION 08: Exposure controls/personal protection
	8.1 Control parameters
	 Ingredients with limit values that require monitoring at the workplace:
	Not required. • Additional information:
	The lists valid during the making were used as basis.
	8.2 Exposure controls
	 Individual protection measures, such as personal protective equipment
	General protective and hygienic measures:
	The usual precautionary measures are to be adhered to when handling chemicals. Keep away from foodstuffs, beverages and feed.
	Immediately remove all soiled and contaminated clothing
	Wash hands before breaks and at the end of work.
	Store protective clothing separately.
	Avoid contact with the eyes.Respiratory protection:
	Use suitable respiratory protective device in case of insufficient ventilation.
	Filter P3
	Protection of hands:
	Protective gloves
	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ th chemical mixture.
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
	Material of gloves
	The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.
	 Penetration time of glove material
	The exact break through time has to be found out by the manufacturer of the protective gloves and has to be
	observed.
	Eye/face protection
	Safety glasses
	Body protection: Impervious protective clothing
	Boots

SECTION 09: Physical and chemical properties

General Information		
Physical state	Fluid	
Colour:	colourless to light yellow	
Odour:	minty	
Odour threshold:	Not determined.	
Boiling point or initial boiling point and boiling range	150,00 - 250,00 °C	
Flammability	Not determined.	
Lower and upper explosion limit		
Lower:	Not determined.	
Upper:	Not determined.	
Flash point:	48,0 °C NFT 60-103 CC	
Decomposition temperature:	Not determined.	
рН	Not determined.	
Viscosity:		
Kinematic viscosity	Not determined.	
Dynamic:	Not determined.	
Solubility

Partition coefficient n-octanol/water (log value)	Not determined.
Vapour pressure:	at 25,00 °C 10,0000 mbar
Density and/or relative density	
Density:	Not determined.
Relative density	0,9000 0,925 D20/20
Vapour density	Not determined.
9.2 Other information	No further relevant information available.
Appearance:	
Form:	fluid
Important information on protection of health	n and environment, and on safety.
Auto-ignition temperature:	Not determined.
Explosive properties:	Not determined.
Solvent content:	
Solids content:	0,00 %
Change in condition	
Evaporation rate	<= 1,0 (butyl acétate = 1)
Information with regard to physical hazard c	lasses
Explosives	not applicable
Flammable gases	not applicable
Aerosols	not applicable
Oxidising gases	not applicable
Gases under pressure	not applicable
Flammable liquids	Flammable liquid and vapour.
Flammable solids	not applicable
Self-reactive substances and mixtures	not applicable
Pyrophoric liquids	not applicable
Pyrophoric solids	not applicable
Self-heating substances and mixtures	not applicable
Substances and mixtures, which emit flammable gases in contact with water	not applicable
Oxidising liquids	not applicable
Oxidising solids	not applicable
Organic peroxides	not applicable
Corrosive to metals	not applicable
Desensitised explosives	not applicable

SECTION 10: Stability and reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical stability

10.3 Possibility of hazardous reactions No dangerous reactions known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products: Not determined.

- Waterhazard class: Generally not hazardous for water.

15.2 Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document.

The required information complies with EU regulations in force. It does not exempt the user from knowing and applying all the national regulations in force.

- Relevant phrases
 - H226 Flammable liquid and vapour.
 - H228 Flammable solid.
 - H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
- H331 Toxic if inhaled.
- H332 Harmful if inhaled.
- H336 May cause drowsiness or dizziness.
 - H341 Suspected of causing genetic defects.
