SECTION 04: First aid measures

- 4.1 Description of first aid measures
- General information:
 - Seek immediate medical advice. After inhalation:
- Supply fresh air and to be sure call for a doctor.
- After skin contact:
- If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: Seek immediate medical advice.
- Information for doctor:

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

SECTION 05: Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions.
- For safety reasons unsuitable extinguishing agents: Water with full jet

5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire.

5.3 Advice for firefighters

- Protective equipment:
- Do not inhale explosion gases or combustion gases.

Additional information Cool endangered receptacles with water spray.

SECTION 06: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources.

6.2 Environmental precautions:

Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system.

6.3 Methods and material for containment and cleaning up: Dispose contaminated material as waste according to item 13. Ensure adequate ventilation.

PRODUCT :	LAVENDER BULGARIA ORGANIC OIL
See Section See Section	(continued of page 4) 7 for information on safe handling. 8 for information on personal protection equipment. 13 for disposal information.
SECTION 07:	Handling and storage
	ions for safe handling
	cles tightly sealed. om heat and direct sunlight.
Ensure good	ventilation/exhaustion at the workplace.
	ation of aerosols. care. Avoid jolting, friction and impact.
 Informat 	ion about fire - and explosion protection:
	ion sources away - Do not smoke. ainst electrostatic charges.
7 2 Conditi	and for cafe storage, including any incompatibilities
Storage:	ons for safe storage, including any incompatibilities
	nents to be met by storerooms and receptacles: v in the original receptacle.
Prevent ar	ny seepage into the ground.
	eceptacles specifically permitted for this substance/ product. ion about storage in one common storage facility:
Not requir	ed.
	nformation about storage conditions: ainer tightly sealed.
Protect fro	om heat and direct sunlight.
Store rece	ptacle in a well ventilated area.
	c end use(s) levant information available.
SECTION 08:	Exposure controls/personal protection
	parameters
 Ingredier Not requir 	nts with limit values that require monitoring at the workplace: red.
 Additional 	al information:
The lists v	alid during the making were used as basis.
8.2 Exposu	
	al protection measures, such as personal protective equipment protective and hygienic measures:
The usual	precautionary measures are to be adhered to when handling chemicals.
	y from foodstuffs, beverages and feed. ds before breaks and at the end of work.
Do not inf	nale gases / fumes / aerosols.
	nale dust / smoke / mist. tact with the eyes.
	pry protection:
	ole respiratory protective device in case of insufficient ventilation. ⁻ brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use
	ined respiratory protective device.
Protective	
	material has to be impermeable and resistant to the product/ the substance/ the preparation. issing tests no recommendation to the glove material can be given for the product/ the preparation/ the
chemical ı	nixture.
SelectionMaterial	of the glove material on consideration of the penetration times, rates of diffusion and the degradation of aloves
The select varies from	ion of the suitable gloves does not only depend on the material, but also on further marks of quality and n manufacturer to manufacturer.
	ion time of glove material break through time has to be found out by the manufacturer of the protective gloves and has to be
observed.

SECTION 16: Other information

The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document.

The required information complies with EU regulations in force. It does not exempt the user from knowing and applying all the national regulations in force.

- Relevant phrases
- H226 Flammable liquid and vapour.
- H228 Flammable solid.
- H302 Harmful if swallowed.
- H304 May be fatal if swallowed and enters airways.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H319 Causes serious eye irritation.
