	Wash hands before breaks and at the end of work.	
	Avoid contact with the eyes.	
	Respiratory protection:	
	Use suitable respiratory protective device in case of insufficient ventilation.	
	Protection of hands:	
	Protective gloves	
	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.	
	Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.	:
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation	
	 Material of gloves 	
	The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and	
	varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of	
	the glove material can not be calculated in advance and has therefore to be checked prior to the application.	
	Penetration time of glove material	
	The exact break through time has to be found out by the manufacturer of the protective gloves and has to be	
	observed.	
*	Eye/face protection	
*	Safety glasses	
*	Body protection:	
*	Impervious protective clothing

SECTION 09: Physical and chemical properties

9.1 Information on basic physical and chemical properties

General Information		
Physical state	Fluid	
Colour:	red-brown, brown-yellow	
Odour:	characteristic	
Odour threshold:	Not determined.	
Boiling point or initial boiling point and boiling range	Not determined.	
Flammability	Not determined.	
Lower and upper explosion limit		
Lower:	Not determined.	
Upper:	Not determined.	
Flash point:	20,0 °C NFT 60-103 CC	
Decomposition temperature:	Not determined.	
рН	Not determined.	
Viscosity:		
Kinematic viscosity	Not determined.	
Dynamic:	Not determined.	
Solubility		
water:	Not determined.	
Partition coefficient n-octanol/water (log value)	Not determined.	
Vapour pressure:	Not determined.	
Density and/or relative density		
Density:	Not determined.	
Relative density	0,8900 0,92	
Vapour density	Not determined.	
9.2 Other information	No further relevant information available.	
Appearance:		
Form:	fluid	
Important information on protection of health	h and environment, and on safety.	
Auto-ignition temperature:	Not determined.	
Explosive properties:	Not determined.

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture • REGULATION (EC) No 1907/2006 ANNEX XVII
 - Conditions of restriction: 3
- DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment - Annex II None of the ingredients is listed.
- REGULATION (EU) 2019/1148
- Annex I RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))
- None of the ingredients is listed.
 Annex II REPORTABLE EXPLOSIVES PRECURSORS None of the ingredients is listed.
- Regulation (EC) No 273/2004 on drug precursors None of the ingredients is listed.
- Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors None of the ingredients is listed.
- National regulations:
- Waterhazard class:
 - Generally not hazardous for water.

15.2 Chemical safety assessment:

A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

The information in this safety data sheet is based on the state of our knowledge at the date indicated. The information in this sheet must be regarded as a description of the safety requirements for the product, they are not to be considered a warranty or quality specification and have no contractual value on properties and application areas thereof. The information contained in this safety data sheet relate to the specific material designated and may not be valid with respect to the product associated with another product or process, unless it is specified in the text of this document.

The required information complies with EU regulations in force. It does not exempt the user from knowing and applying all the national regulations in force.

- Relevant phrases
 - H225 Highly flammable liquid and vapour.
 - H319 Causes serious eye irritation.

• Training hints

Minimum training in occupational risk prevention is recommended for personnel who will handle this product, in the purpose of facilitating the understanding and interpretation of this form of safety data in the same way as the labeling of the product.
