### SECTION 04: First aid measures

- 4.1 Description of first aid measures
- General information:
- Seek immediate medical advice. After inhalation:
- Supply fresh air and to be sure call for a doctor.
- After skin contact:
- If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing:
- Seek immediate medical advice.
- Information for doctor:

4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available.

	8.1 Control parameters
	<ul> <li>Ingredients with limit values that require monitoring at the workplace:</li> </ul>
	Not required. <ul> <li>Additional information:</li> </ul>
	• Additional information: The lists valid during the making were used as basis.
	The lists value during the making were used as basis.
	8.2 Exposure controls
	<ul> <li>Individual protection measures, such as personal protective equipment</li> </ul>
	General protective and hygienic measures:
	The usual precautionary measures are to be adhered to when handling chemicals.
	Wash hands before breaks and at the end of work.
	Respiratory protection:
	Use suitable respiratory protective device in case of insufficient ventilation.
	Filter P3
	Protection of hands:
	Protective gloves
	The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.
	Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.
	Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
	Material of gloves
	The selection of the suitable gloves does not only depend on the material, but also on further marks of guality and
	varies from manufacturer to manufacturer.
	Penetration time of glove material
	The exact break through time has to be found out by the manufacturer of the protective gloves and has to be
	observed.
	Eye/face protection
	Safety glasses
	Body protection:
	Impervious protective clothing
