Reviewed on: 04.09.2023 Printing date: 04.09.2023 **PRODUCT**: **PINE NEEDLE ABSOLUTE** (continued of page 1) Asp. Tox. 1 - H304; Skin Sens. 1B - H317 SECTION 04: First aid measures 4.1 Description of first aid measures General information: Seek immediate medical advice. After inhalation: Supply fresh air and to be sure call for a doctor. After skin contact: If skin irritation continues, consult a doctor. After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor. After swallowing: Seek immediate medical advice. Information for doctor: 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available. 4.3 Indication of any immediate medical attention and special treatment needed No further relevant information available. SECTION 05: Firefighting measures 5.1 Extinguishing media • Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. Use fire extinguishing methods suitable to surrounding conditions. For safety reasons unsuitable extinguishing agents: Water with full jet 5.2 Special hazards arising from the substance or mixture Formation of toxic gases is possible during heating or in case of fire. 5.3 Advice for firefighters Protective equipment: Do not inhale explosion gases or combustion gases. Additional information Cool endangered receptacles with water spray. SECTION 06: Accidental release measures 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation Keep away from ignition sources. 6.2 Environmental precautions: Do not allow product to reach sewage system or any water course. 6.3 Methods and material for containment and cleaning up: Dispose of the material collected according to regulations. 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Material of gloves •

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

- Penetration time of glove material
- The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye/face protection Safety glasses
- .
- Body protection: Impervious protective clothing Boots

### SECTION 10: Stability and reactivity

10.1 Reactivity

No further relevant information available.

10.2 Chemical stability

10.3 Possibility of hazardous reactions No dangerous reactions known.

10.4 Conditions to avoid No further relevant information available.

10.5 Incompatible materials: No further relevant information available.

10.6 Hazardous decomposition products: Not determined.

#### SECTION 11: Toxicological information

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
Acute toxicity

• LD/LC50 values relevant for classification:

ISO LD/LC

- 87-44-5 BETA-CARYOPHYLLENE
- Oral, LD50: > 5000 mg/kg (rat) (Hart and Wong 1971)
- Primary irritant effect:
- Skin corrosion/irritation No irritant effect.
- Serious eye damage/irritation No irritating effect.
- Respiratory or skin sensitisation
- No sensitizing effects known.
- Germ cell mutagenicity

#### 87-44-5

\*

+

\*

\*

- BETA-CARYOPHYLLENE
- OECD 471 AMES: NEGATIVE (in vitro) (Heck and al., 1989) • Carcinogenicity
- Not determined.Reproductive toxicity
- Reproductive toxicity Not determined.
- STOT-single exposure
- Not determined.
- STOT-repeated exposure
- Not determined.
- Aspiration hazard Not determined.
- Subacute to chronic toxicity:
- Not determined.
- Additional toxicological information:
- The substance is not subject to classification according to the latest version of the EU lists.
- 11.2 Information on other hazards
  - Endocrine disrupting properties
  - Substance is not listed.
